The Eagle Rock Multi-Age Program (ERMA) was created in 1994 and provides another choice for parents in the Riverview School District. This K-5 program integrates curricular areas through school-wide thematic units to bring learning alive for students. Active studies include field trips throughout the year to enhance academic areas. We offer a unique hands-on, minds-on learning environment that fosters cooperation and teamwork. Monthly character traits and family groups help the children grow socially. Teachers use a variety of teaching techniques to meet students' individual learning styles. The Eagle Rock Program allows students to progress through the elementary experience at a rate based on individual strengths.

One component of the Eagle Rock experience is the commitment of each family to volunteer a minimum of 60 hours per year. Parents volunteer their strengths, talents, and skills. We believe that involving parents and community in the learning process is critical and an integral part of our students' success.

Another component is the emphasis on man's relationship with the environment. In our outdoor classroom and garden settings, students are free to explore and learn about nature, applying to their own environment what is learned in the classroom and on field trips. Students are encouraged to spend recess time enjoying the garden. We will begin our second year in partnership with Green Schools. This partnership has allowed us to start a school-wide recycling program which includes composting and worm bins as well as paper products.

Student leadership is a top priority. Our student council, in its fifth year, allows students to be actively involved. The council has accomplished many tasks including raising money for the community and organizing spirit days. The council also gives input on dress codes and school rules and helps decide what the school needs are from the students' point of view. Our students are also encouraged to provide articles and art for the quarterly newsletters produced by our students.

Eagle Rock is managed by a National Board Certified Teacher and staff members who are leaders in the district and state professional development. All members of ERMA strive for excellence through collaboration, building an exceptional educational foundation for students in an inviting, and nurturing setting.

Sincerely,
Judy Kay Harris

Riverview School District

Eagle Rock K-5 Multi-Age Program

Mission Statement

To connect school, family, and community in order to create a strong foundation for a future of life-long learning.

Vision

At Eagle Rock we:

- Believe in a theme-based, multi-age philosophy of education, which focuses on the individual and personal needs of each of our students.
- Guide and teach our students to be the best they can be in all that they do and dream.
- Value active participation through hands-on, minds-on learning, cooperation, and teamwork.
- Model a love and passion for life-long learning.

School Improvement Goals

The Eagle Rock Multi-Age Program supports site goals for improved student learning through the district budget, corporate sponsorship and grants.

This includes attending a staff retreat and providing ongoing in-service to educate staff and parents about the Multi-age philosophy and strategies that help us improve teaching and learning in all curriculum areas.

The Eagle Rock Site-Based Council is the overall governing system of this program. The council consists of the staff members and parent representatives.

Invitation to Participate

Families who wish to enroll their child(ren) in the Eagle Rock K-5 Multi-Age Program should request an application packet early in January. Applications are due the beginning of March. If you have questions, contact the ERMA office at 425-844-4900.

The ERMA PTA is an outstanding group of dedicated parents who provide support for our program needs, including music, art, and PE, Health and Wellness and Drama.

Facility Information

The Eagle Rock Multi-Age Program is located in modular buildings near Cedarcrest High School. Our students partner with Cedarcrest students in Drama, Art, and Literature projects.

A large deck and a garden, along with an outdoor classroom, provide daily interaction with the environment. In addition to the classrooms, a multi-purpose room provides space for a mini-computer lab and group activities.

Community/School Safety

Community Ties

Eagle Rock strives to strengthen its ties to the community in a number of ways, including sponsorships with local businesses. The Duvall Historical Society participates in our classroom learning experiences and furthers student knowledge of local history.

Students often visit Oxbow Farms. Fifth grade students attend a 4 day Outdoor Education Camp at IslandWood located on Bainbridge Island.

School Safety

Emergency Preparedness is a priority with families and staff at Eagle Rock. Our Emergency Preparedness Committee engages staff and students in planning for unexpected events through regular drills, ensuring that every student has a personal emergency kit, and in training 5th graders to be "Student Emergency Response Team" (SERTs) to assist adults in an emergency. In addition, we have an on-site storage facility containing adequate supplies to sustain us for a period of 72 hours after a major emergency.

Riverview's 2007-2008 Cost to Educate One Student for One Day \$49.47
